

Mission Statement

The Caring Place Entrepreneur Program

The Caring Café Entrepreneur Program teaches entrepreneurship to the youth from low-income communities to enhance their economic productivity by improving their business, academic and life skills.

The Caring Café Entrepreneur Program provides inner city youth with the knowledge and skills to plan, develop, and start their own businesses. Students work through all aspects of creating a functioning business: Hands on experience, writing a mission statement, designing marketing materials (logos, flyers, business cards, Web sites), calculating business financials, and writing a business plan. After completing these tasks, students will develop a functional business. The goal is for the youth to have the knowledge and the skill to manage and/or operate their own business.

If you would like to donate to our entrepreneurship program or any of our other programs please make the check payable to : "The Caring Place" All donations are tax deductible.
